POINT MONITORING & INTRUSION SYSTEMS

State-of-the-art monitoring and intrusion systems provides a secure environment for the modern day business.

With full monitoring of points of access and perimeters the system ensure point control of access to the plant or building is maintained effectively.

STAND ALONE ACCESS CONTROL

For the facility that requires a stand-alone access control system. Designed to client specifications the system provides an effective means of controlling access to designated areas with the appropriate levels of security maintained.

ONLINE ACCESS CONTROL SYSTEM

Fully networked online access control systems. Designed to incorporate all the necessary peripheral devices to control, monitor and have visual display of the plant or building. Complete recording of event information. This system provides the total integrated access control and alarm monitoring system for leading organization.

CCTV SYSTEMS STAND ALONE & MATRIX

Total digital video and audio recording system that provides continuous CCTV recording, archiving and debriefing capabilities that meets the needs of today's demanding security environment. The complete solution for high-level security. Alternatively, the stand-alone CCTV systems, which provides visual display of specific areas of plants or buildings

CONCLUSION

We are a professional company with the resources to meet the commitments given in this company profile. We custom build your CCTV System to specifications given in Retail, Industrial, and financial sectors etc. Comdetech can also interface your fire alarm system; special hazards fire protection system and fire sprinkler system into one interconnected network. This eliminated conflicting equipment and brings information into a single point to ensure maximum control. Camdetech assures timely response to customer service, user-friendly equipment, top class technical support and an outstanding warranty and service plan.
